

APPROVED SHERWIN WILLIAMS HOUSE PAINT COLORS

Homeowners must submit an ARC REQUEST FOR MODIFICATION form for all exterior painting and then subsequently receive ARC approval **prior** to starting any work (including when repainting with the original paint colors).

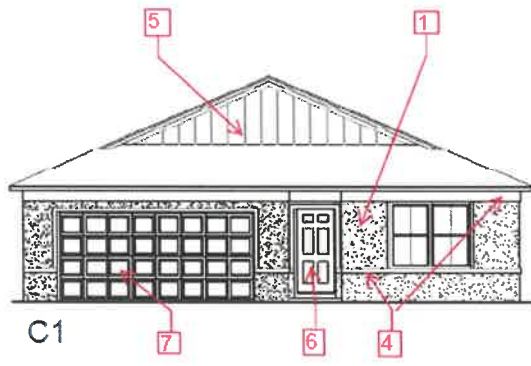

Homeowners may select a paint brand of their choice; however, the color must **EXACTLY** match the approved Winding Cypress Sherwin Williams colors illustrated after this introductory statement.

Each color must be applied only to the areas of the home specified in the left column entitled "PACKAGE". For instance, 1st floor Stucco or Siding colors may be applied to the first floor Stucco or Siding area of the home. Only Trim colors may be applied to the Trim; and so forth. Homeowners may view actual samples/color palettes in a book with the Sherwin Williams Approved Paint Colors at the HOA office.

FRIENDLY REMINDER: The exterior paint on your home provides not only curb appeal, but also maintains the home values in our community. Therefore, it is strongly recommended that prior to painting, a proper prepping method is used as well as purchasing the highest grade of paint offered by your paint brand of choice. This is due to the harsh Florida sun and strong UV light. While a FLAT finish is acceptable – you may want to consider a SATIN finish to remove mold and mildew more easily. (Other finishes are NOT PERMITTED). Following these steps will maintain the integrity of the color and save repainting costs in the long run.

Thank you from your ARC Committee Members!
